

Z-window: The Infinite Blue Sky, Indoors.

The Kazzar Z-window is a revolutionary artificial skylight designed to replicate the optical depth and brilliance of a real blue sky. The Z-window creates a realistic sun and sky effect, bringing the psychological and physiological benefits of natural light into enclosed spaces.

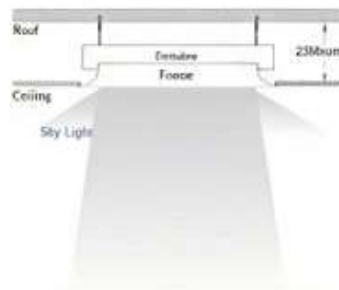

KEY FEATURES & BENEFITS

- ☀️ • **True Blue Sky Effect:** Simulates infinite atmospheric depth.
- ☀️ • **Circadian Rhythm Support:** Tunable white range (2500K - 10,000K).
- 🎨 • **High Fidelity Light:** CRI Ra \geq 98 for vibrant colors.
- ✋ • **Smart Control:** DALI, App, and Panel dimming (0-100%).
- 💡 • **High Output:** 3000 lux @ 3m for functional lighting.

TECHNICAL SPECIFICATIONS

Model Name	Z-window
Power: 100W	Input Voltage: 90-277V AC
Luminous Flux	3000 lux @ 3m
CCT	2500K - 10,000K
CRI: Ra \geq 98	Beam Angle: Narrow
Dimming	0-100% (DALI, App, Panel)
IP Rating	IP20
Lifespan	50,000 Hours
Operating Temp	-20°C to 40°C
Weight	10 kg
Certifications	CE, ETL, CCC

DIMENSIONS & INSTALLATION

Unit Diameter: 605mm | **Unit Height:** 93mm
Visible Aperture: \varnothing 500mm | **Cutout Size:** \varnothing 625mm
Minimum Ceiling Void: \geq 200mm
